

RC COMPETITION RULES

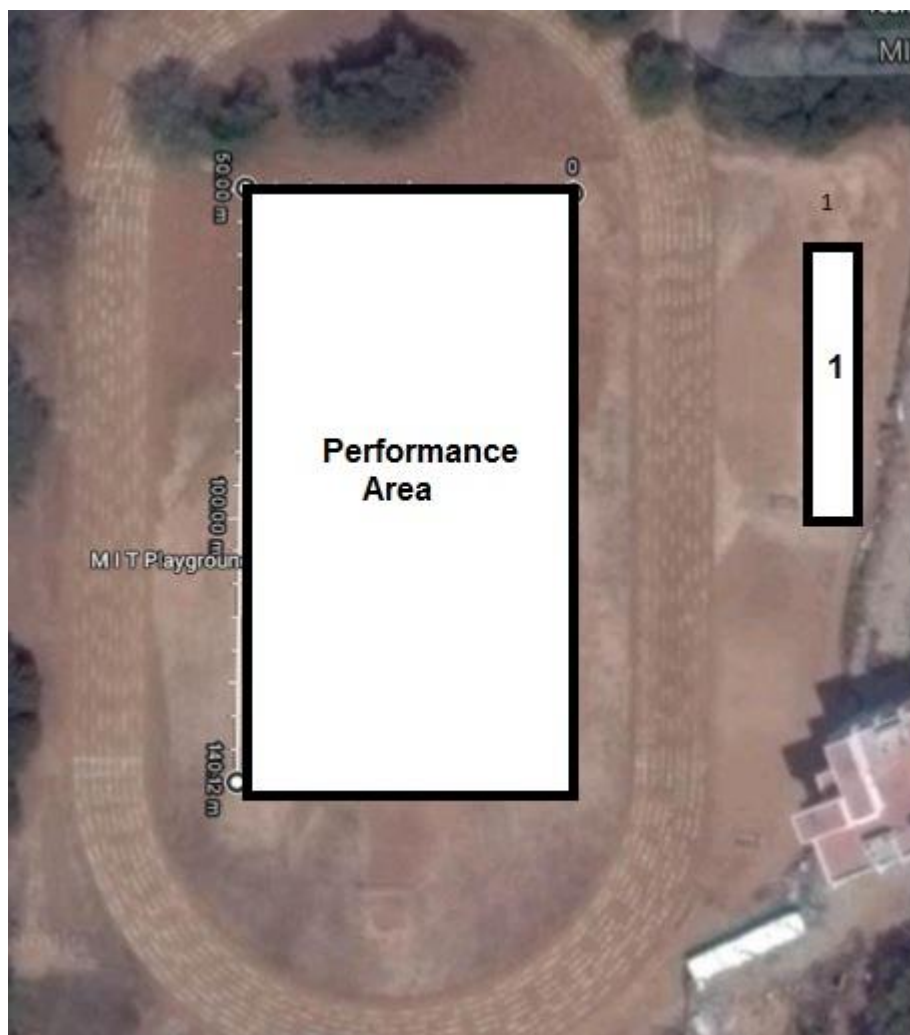

Participants entry limitations

Entry opens for all students and professional/amateur aero modelling clubs

Rules

1. The wing span should be limited to 1.7 m.
2. Aircraft weight has to be less than 1700 grams.
3. Only single propeller airplane is allowed and the propeller diameter should not exceed 10"
4. Maximum 2 members per team.

The team will have a total time of 5 minutes (excluding takeoff and landing) to perform freestyle aerobatic manoeuvres of their choosing and winners will be decided based on the complexity and style of execution of the manoeuvres performed.

- 1) Take off and landing area
